ComS 252 Homework 0: Upload files

Individual assignment

Due August 29, 2023

Summarize an article   50 points

Read Eric Raymond's essay, "The Cathedral and the Bazaar" (all 13 parts, through "Epilog: Netscape Embraces the Bazaar"). It may be found in several places online, such as http://www.catb.org/~esr/writings/cathedral-bazaar/cathedral-bazaar/. In a plain ASCII text file named homework00.txt, give an itemized list of at least five of Raymond's reasons for why open–source development can produce better software than traditional closed–source development.

Submitting your work   50 points

Using an scp client, upload your text file to your home directory on the homework server (cs252.cs.iastate.edu; this is *not* through Canvas). To verify your submission, remote login to cs252.cs.iastate.edu using an ssh client, with your username and password. You should be able to view your submission with the shell command

```
cat homework00.txt
```

and close the connection with

```
exit
```
